City staff has considered the potential environmental impacts of the proposed modifications to Tentative Tract Map No. 33540 (the "project") in accordance with the California Environmental Quality Act ("CEQA") and the state CEQA Guidelines. City staff also reviewed the Initial Study and Mitigated Negative Declaration (MND) prepared for Tentative Tract Map No. 33540 and approved by the City Council on September 26, 2006, including the impacts and mitigation measures identified therein, which documents are on file in the Community Development Department. Based on that review, the City of Banning Planning Division has determined that the proposed project and the circumstances under which the proposed project is undertaken do not involve substantial changes which will result in new significant environmental effects, and that

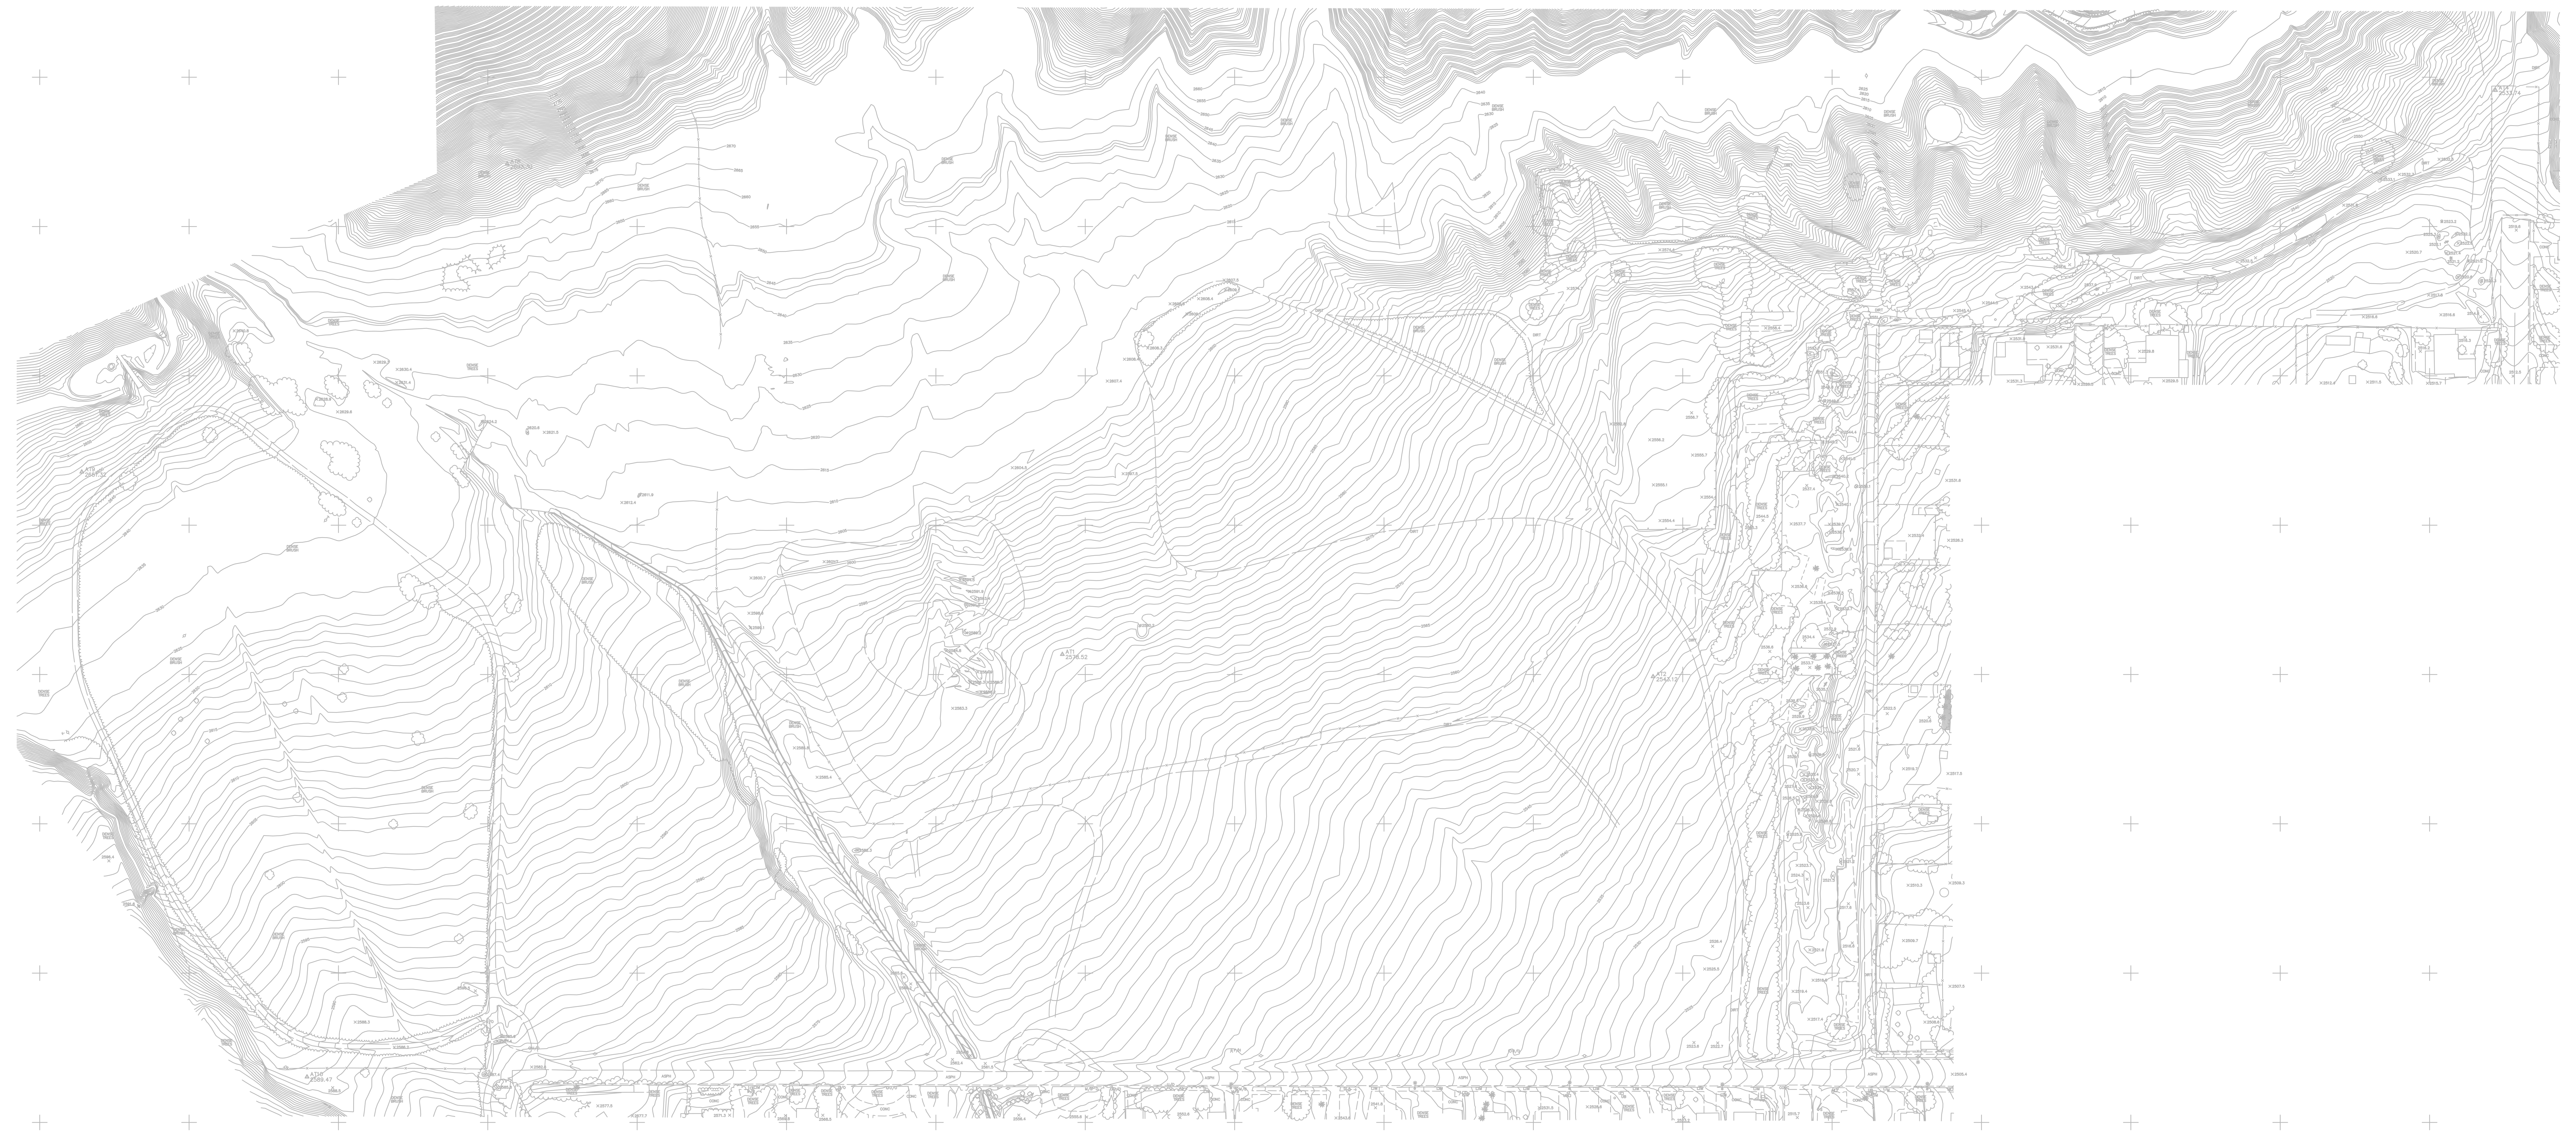

the project does not involve new information of substantial importance which shows that the project will have significant effects not discussed in the prior MND. All potential environmental impacts associated with Tentative Tract Map No. 33540 and the proposed modifications to Tentative Tract Map No. 33540 are adequately addressed by the prior MND, and the mitigation measures contained in the prior MND will reduce those impacts to a level that is less than significant. Therefore, in accordance with CEQA Guidelines Section 15162 (“Subsequent EIRs and Negative Declarations”), a subsequent environmental document is not required.
